

Child Safe - Hudson and Harvey (Senior Grade)

In the Senior grade we were creating posters to help the younger students understand how to be safe at school, home and in the community.

One of the things we were talking about was a hand which represents the five people you can trust like your parents or teachers. We did this because the original poster was too tricky for the Juniors to understand, and the message was really important. We hope you see them standing out around the school!
